

Illinois Drug Court Reporting System

Prepared by Munindra Khaund

The Drug Court Data Reporting System is a web-based data collection device. It was created by the Office of Web Services at the University of Illinois Springfield. The Illinois Drug Court Reporting System will be used by personnel in Drug Courts in Illinois counties to enter monthly data. The data may be used to examine the relationship between crime and drug use.

Roles

There are two user roles: 1) Data Admin, and 2) Data Collector.
